SUMMARY

Risk management professional with experience in FMCG and financial services. Expertise in risk assessment, internal controls, and business process improvement. Experienced in developing ISO 31000 and COSO-based frameworks, monitoring Key Risk Indicators (KRIs), and advising leadership on strategic risks and mitigation.

EXPERIENCE

08/2026 - 09/2026

Business Process Improvement and Management System Assistant Manager

Eka Jaya International ↗

- Develop Standard Operating Procedures (SOPs) to standardize business processes, clarify roles and responsibilities, and support consistent operational execution.
- Support process owners by providing an AI-powered SOP generator to streamline process documentation and simplify SOP creation and updates.

12/2025 - 08/2026

Business Process Improvement Associate Manager

Wings Group ↗

- Design and develop a risk management framework from the ground up, including risk governance, risk appetite and tolerance, risk assessment methodology, and monitoring and reporting mechanisms.
- Build a digital risk management system using Google AppSheet to manage risk registers, track mitigation progress, and support ongoing risk monitoring.
- Conduct comprehensive business process reviews and risk assessments to identify operational risks, potential fraud schemes, process inefficiencies, and control weaknesses, and evaluate their impact on business objectives.

12/2022 - 12/2025

Senior Risk Analyst

Nabati Group ↗

- Perform operational risk assessments across supply chain, manufacturing, QSR and S&D (domestic and overseas) to identify potential threats to company objectives.
- Design and implement a continuous monitoring system to track Key Risk Indicators as early warning system.
- Report Strategic Risk Assessments to the Board of Directors to provide insights and mitigations for decision-making.

12/2020 - 12/2022

Strategic and Risk Executive

Armila Syari Group

- Conduct Strategic Risk Assessments to proactively identify potential risks and business development opportunities
- Drive Business Growth by expanding the product line to capture new opportunities, aligning with strategic objectives.

07/2018 - 11/2020

Strategic Risk and Compliance Lead

Treasury Gold Indonesia ↗

- Ensure compliance with financial regulations, including AML and KYC policies, related to gold transactions.
- Conduct comprehensive risk analyses that may influence gold prices, evaluating potential

impact on the company objective.

07/2018 - 12/2018

Business Assistant to Director
Indonesia Commodity and Derivatives Exchange ↗

- Support the Director in executing and implementing initiatives to drive the expansion of business lines.
- Perform in-depth risk assessments of clearing house operations to identify and address potential vulnerabilities.
- Maintain up-to-date knowledge of financial regulations and industry best practices to ensure effective clearing house risk management.
